Declaration of Academic Integrity.....	VII
German Title of this Thesis.....	IX
Abstract.....	XI
Kurzzusammenfassung	XIII
Contents	XV
1 Introduction.....	1
1.1 Steroids ^[11]	2
1.1.1 Introduction.....	2
1.1.2 Biosynthesis	4
1.1.3 Importance for Nature and Medicine	6
1.2 Gorgosterol.....	8
1.2.1 Introduction ^[11,26]	8
1.2.2 Previous Semisyntheses	11
1.2.3 Previous work in our group.....	17
2 Aim of this work	20
3 Results and discussion	22
3.1 Towards a new semisynthesis of demethylgorgosterol and gorgosterol.....	22
3.1.1 Synthesis of the steroidal alkene.....	22
3.1.2 Stereoselective cyclopropanation ^[26]	27
3.1.3 Formal semisynthesis of demethylgorgosterol ^[26]	32
3.1.4 Comparison to previous syntheses ^[26]	37
3.1.5 Further work on demethylgorgosterol and gorgosterol	38
3.2 Synthesis of demethylgorgosterol analogs.....	44
3.2.1 Hydrocarbon analogs	44
3.2.2 Functionalized analogs.....	55

3.2.3	Double cyclopropanated analogs	61
3.2.4	Fluorophore-steroid conjugates	67
3.3	3-Cyclopropylacrylates by cyclopropanation using a vinylogous diazoester	75
3.3.1	Introduction.....	75
3.3.2	Optimization of the reaction conditions.....	79
3.3.3	Scope and limitations of the cyclopropanation and a plausible mechanism.....	83
3.3.4	Follow-up chemistry of the cyclopropylacrylates.....	88
3.3.5	Unexpected selectivity with 9-vinylanthracene	90
3.3.6	Synthesis of a new paracyclophane-based ligand.....	92
4	Summary and outlook.....	95
4.1	Development of a new semisynthesis of demethylgorgosterol and gorgosterol ^[26] ..	95
4.2	Synthesis of demethylgorgosterol analogs.....	99
4.3	3-Cyclopropylacrylates by cyclopropanation using a vinylogous diazo ester	102
5	Experimental.....	106
5.1	General information	106
5.1.1	Solvents, reagents, and methods	106
5.1.2	Analytical devices and instruments	108
5.2	Synthetic methods and characterization data	110
5.2.1	General procedures	110
5.2.2	Synthetic Methods and Characterization Data for Chapter 3.1	112
5.2.3	Synthetic Methods and Characterization Data for Chapter 3.2	133
5.2.4	Synthetic Methods and Characterization Data for Chapter 3.2	189
5.3	Crystallographic data.....	219
5.3.1	Crystallographic Data Solved by Dr. Olaf Fuhr	219
5.3.2	Crystallographic Data Solved by Dr. Martin Nieger	230
6	References.....	256
7	Appendix.....	266

7.1	List of abbreviations and acronyms	266
7.2	Curriculum vitae.....	273
7.3	List of publications.....	274
7.4	Acknowledgments.....	275
