CONTENTS

PROCEEDINGS OF THE 4TH INTERNATIONAL WORKSHOP AT AUA, COLLEGE OF SCIENCE & ENGINEERING ON DATA SCIENCE AND RELIABLE MACHINE LEARNING

Preface

Hajian, A., Baloian, N., Inoue, T., and Luther, W. v

DATA SCIENCE AND INFORMATION THEORETIC APPROACHES FOR SMART SYSTEMS AND COMPUTER SYSTEM ORGANIZATION x

Outer Bound for Rate-Reliability-Equivocation Region of Compound Wiretap Channel with Informed Terminals

Haroutunian, M. 1

Application of Identification Codes to the Two-Party Privacy-Preserving Record Linkage (PPRL)

Chen, Y. 7

An Automated Approach to Collecting and Labeling Time Series Data for Event Detection Using Elastic Node Hardware

Ling, T., Mansour, I., Qian, C., and Schiele, G. 23

Towards Training DNNs with Quantized Parameters

Buron, L., Einhaus, L., Erbslöh, A., and Schiele, G. 35

HUMAN-CENTERED COMPUTING–RELIABLE MACHINE LEARNING 45

Ensembling Machine Learning Models for Malware Detection

Galdames, P., Gutiérrez-Soto, C., and Palomino, M. 47

Design of Feedback for a System to Support Distance Project-Based Learning

Sasaki, K. and Inoue, T. 61

Orientation-Dependent Chord Length Distribution Functions of Bounded Convex Domains

Aharonyan, N. G. and Ohanyan, V. K. 77

Assessing Glaucoma Online Tools

Baloian, N. and Luther, W. 82

Color Image Enhancement with Quaternion Fourier Transform-Based Alpha-Rooting

Vardazaryan, A. and Grigoryan, A. 93

Novel Gradient-Based Retinex Method for Image Enhancement

Bayramyan A. and Grigoryan, A. 101

Fairness in the Use of Medical Online Tools

Luther, W. and Harutyunyan A. 109

Exploring Design Aspects of an AI-supported Farming Platform

Mikayelyan A. and Harutyunyan, A. 120

INTERPRETABILITY IN MACHINE LEARNING MODELS 125

An Explainable Clustering Algorithm using Dempster-Shafer Theory

Valdivia, R., Baloian, N., Chahverdian, M., Adamyan, A., and Harutyunyan, A. 126

Embedded Interpretable Regression using Dempster-Shafer Theory

Baloian, N., Davtyan, E., Petrosyan, K., Poghosyan, A., Harutyunyan, A., and Peñafiel, S......131

Improving the DSGD Classifier with an Initialization Technique for Mass Assignment Functions

Tarkhanyan, A. and Harutyunyan, A..... 137

An Empirical Analysis of Feature Engineering for Dempster-Shafer Classifier as a Rule Validator

Baloyan, A., Aramyan, A., Baloian, N., Poghosyan, A., Harutyunyan, A., and Peñafiel, S......143

Interpretability of Machine Learning Models in the Insurance Sector

Sargsyan, A. 153
